

BCaBA

Board Certified Assistant Behavior Analyst

Grow skills together. Make each step meaningful.

Sunshine Therapies seeks a BCaBA to support individualized ABA services under the supervision of a BCBA. Collaborate with the clinical team and caregivers to carry out effective programming and monitor client progress.

What you will do

- Assist with assessments and treatment planning under BCBA supervision.
- Implement assigned programs and support skill development and behavior goals.
- Collect, review, and summarize data with the supervising BCBA.
- Support treatment integrity and communicate concerns or recommended adjustments to the BCBA.
- Coach and supervise RBTs when qualified and authorized for the assignment.
- Support caregiver education and team collaboration under BCBA guidance.
- Maintain accurate documentation and follow ethical and safety standards.

What you will bring

- Hold an active BCaBA certification and a bachelor's degree.
- Maintain ongoing BCBA supervision and applicable state credentials.
- Complete required background checks and employer onboarding.
- Bring strong communication, organization, and data-collection skills.
- Experience supporting individuals with autism or developmental disabilities is preferred.

BCaBAs provide behavior-analytic services under BCBA supervision. This role does not provide independent practice.

Ready for your next step?
